11-018

SAFETY ALERT

❖Keep ammunition, explosives, and expended brass and links separated.

❖Leaders ensure you have an effective amnesty program for ammunition and explosives.

**The mission is over…**
**Do you know where your grenade went?**

**ASP and DLA turn-in points continue to find live rounds and even grenades among expended brass and links.**

**Your negligence could lead to someone's death!**

❖If you are unsure what to do with excess ammunition or explosives, contact EOD or the ASP under the amnesty program.
